Dash, Flutter, Firebase, Google Data
Studio, PostgreSQL

PROFILE INFO

A strategic technical leader with proven success guiding organizations through technological evolution in blockchain, AI, and decentralized systems. I've successfully led the development and market launch of multiple innovative projects in high-pressure environments, transforming complex concepts into market-ready products by maintaining strong stakeholder relationships while effectively managing multinational teams through rapid development cycles.

My leadership approach centers on building trust and collaborative team dynamics through a "soft power" philosophy that consistently delivers results even during high-pressure situations and challenging sprints. With dual expertise in both product leadership and operational management, I bring comprehensive understanding of organizational needs—from establishing foundational business structures that ensure stability and scalability to optimizing resources and managing technical infrastructures.

WORK EXPERIENCE

- Feb 2024 - Present

Vbri
Dubai, UAE

Technical Product Manager

Led strategic development of innovative Blockchain applications, AI solutions, and digital platforms from concept to market, guiding organizations through product inception while providing technical expertise that balanced innovation with feasibility.

Established and maintained key stakeholder relationships, ensuring alignment between business objectives and technical implementation while facilitating effective collaboration between design, development, and marketing teams.

Developed product documentation and conducted market research to inform strategy, successfully leading 9 out of 13 projects to market with rapid 1-2 month development cycles while managing resource allocation to ensure optimal product quality.
- Apr 2024 - May 2025

KNAI - Knowledge
Nexus AI
Dubai, UAE

Chief Operations Officer

Established foundational business structures ensuring organizational stability, sustainability, and scalability for long-term growth in the AI knowledge ecosystem market.

Oversaw core infrastructure development and implemented key operational systems, enhancing efficiency while managing resources and budget allocation across departments.

Developed strategic partnerships with industry-leading organizations and implemented governance mechanisms that fostered innovation while maintaining alignment with business objectives.
- Jan 2024 - Feb 2024

Vbri

Senior Data Scientist

Coordinated a cross-functional team of stakeholders, managing a team of AI professionals to develop a machine learning project.

Implemented comprehensive documentation for AI products, providing clear instructions for users and reducing customer support inquiries by 40%.

Mentored junior members of the AI team, resulting in an overall team performance improvement of 30% through skill development and knowledge sharing.

Sept 2022 - Jan 2024 Massarat FZCO Dubai, UAE	Lead Data Scientist Led a team of data analysts to conduct data analysis and develop interactive dashboards, resulting in a 30% increase in company efficiency and saving over \$100,000 per year (or 75% of the budget) by implementing Plotly Dash in Python. Collaborated with cross-functional teams to design and implement data governance policies, reducing data errors by 10%. Trained team members on data analysis and visualization techniques, supporting their professional development.
Jan 2022 - Sept 2022 Project Intern Dubai, UAE	Back-End Developer Enhanced user experience and increased user retention by 15% by producing and modifying modules and user interfaces using Dittofi platform tools. Collaborated with the design team to develop the database, APIs, and back-end code using SQL, JS, and Google Go, ensuring an efficient and seamless user experience. Developed and maintained documentation and API configurations for future development and maintenance reference. Contributed to the implementation of a new feature, increasing the company's revenue by 20%.
May 2018 - Dec 2021 Express Parking Charlotte, NC	Manager / Valet Supervised, scheduled, and trained a team of 15 valets, increasing overall efficiency and customer satisfaction by 15%. Exceeded customer satisfaction goals by providing timely assistance and vehicle retrieval, resulting in a 20% increase in repeat customers. Developed and implemented standard operating procedures, increasing productivity by 10% and reducing errors by 15%.
May 2019 - Aug 2019 AffeqtEDU Dubai, UAE	Data Analyst Intern Prepared the data to develop the algorithms for analyzing 1.5 million students. Analyzed and visualized data using Microsoft Excel, Python, and PowerBI.

EDUCATION

2021 B.S. in Computer Science, Concentration in Data Science University of North Carolina at Charlotte Charlotte, NC Dean's List Academic Achievement Award – 2020 Chancellor's List Academic Achievement Award – 2021
2021 Minor in Mathematics University of North Carolina at Charlotte Charlotte, NC
